PROFESSIONAL SUMMARY

Final-year B.Sc. Computer Science student with hands-on web development experience through a 3-month remote internship at UptoSkills. Contributed to frontend UI development, cross-platform application testing, relational database schema design, and system architecture study in a live agile environment. Proficient in HTML5, CSS3, JavaScript, PHP, and MySQL, with foundational exposure to React and Python. Actively building projects and seeking a fresher web developer role.

WORK EXPERIENCE

Web Development Intern | UptoSkills (Remote OJT)

Dec 2025 – Mar 2026

Supervisor: Swapnil Patil, Manager | Remote / Virtual

- Designed and refined frontend UI layouts for the Leaderboard Page feature, collaborating with team members on code reviews and improving collaborative coding practices.
- Set up and tested application features on both Windows and Linux environments; performed functional testing and retesting of Version 2 on Linux and documented all findings.
- Investigated a JudgeD runtime error on a virtual machine environment; analysed VM configuration and system logs and implemented an alternative solution to maintain workflow continuity.
- Designed a Notification Table Schema for the platform database, strengthening knowledge of relational database design, indexing, and data isolation.
- Researched the Guru AI knowledge management platform and prepared detailed technical documentation covering REST APIs and AI integration capabilities for the development team.
- Studied system architecture and team task distribution; gained exposure to large-scale modular software development and agile workflows.
- Learned PostgreSQL fundamentals — practised SQL queries, joins, indexing, and table creation as part of structured database learning tasks.
- Completed UI improvements for the Question-Answer page, aligning layout styling with Guru-style interface design patterns.

PROJECTS

Sikshantra – Academic Management System | PHP,

2024

MySQL, HTML, CSS, JavaScript

- Built a comprehensive academic platform for coaching institutes covering attendance tracking, quiz management, assignment submission, timetable management, and student feedback modules.
- Implemented role-based access control with distinct Admin, Teacher, and Student panels, ensuring secure and structured user workflows.
- Optimised MySQL queries for faster performance; used structured PHP backend logic with form validations and a responsive, cross-device compatible frontend.

Portfolio Website | HTML, CSS, JavaScript

2025

- Designed and developed a fully responsive personal portfolio website showcasing projects, skills, and contact details for professional outreach.
- Applied CSS animations and structured layout techniques to create a polished visual flow across all screen sizes.

Hisaab App – Product & Sales Tracking | Flutter, Firebase

2024

- Developed a mobile application for shopkeepers to manage products, track daily sales, and update stock in real time using Flutter and Firebase.
- Designed an intuitive widget-based UI focused on simplicity for non-technical users, with features including daily sales records and quick product scanning.
